1. Claims 1, 3, 4, 6 and 10-14 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The claims are allowed because the prior art of record fails to teach, disclose, or fairly suggest a method for treating photographic waste effluent containing reduced species, comprising oxidation with hydrogen peroxide or a compound capable of releasing hydrogen peroxide, in the presence of a catalyst for the oxidation selected from molybdate, tungstate, chromate, and vanadate, wherein the catalyst is immobilized on a substrate comprising an anion exchange material. It is submitted that no single limitation is novel alone, but the specific combination of **all** of the steps recited in claim 1 working together to treat **photographic waste effluent** is not suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
